EDUCATION

Florida State University | Tallahassee, FL August 2022 – May 2026

B.S. Information Technology | Minor: Business Analytics & Computer Science | GPA: 3.86/4.0 | Magna Cum Laude

Dean's List / President's List • Lambda Phi Eta Honor Society • Association for Information Systems • Men's Lacrosse

EXPERIENCE

Henry Schein Remote June 2026 – Present

Cybersecurity Intern

- Conducting GSOC alert analysis using Torq to identify over triggering detection rules; investigating root causes to reduce false positive rates and improve signal fidelity across the security operations environment.

Henry Schein Remote May 2025 – August 2025

Cybersecurity Intern

- Analyzed and standardized global firewall rulesets across core and remote entities using Palo Alto Panorama; reduced total rules by 14% through Python-based automation aligned with least-access principles.
- Assessed and implemented strategies to reduce endpoint risk by restricting access to malicious websites and limiting executable file downloads, mitigating user compromise and minimizing device reimaging.
- Co-led analysis of customer authentication and authorization processes across external-facing platforms; supported development of a transition strategy to enable centralized access control via Microsoft Entra ID.

Henry Schein Remote May 2024 – August 2024

Digital Architecture Intern

- Conducted comprehensive performance testing on a new global e-commerce platform using Selenium to automate test cases, ensuring efficiency and reliability in the software development lifecycle.
- Executed security testing using Burp Suite and OWASP ZAP to identify and remove vulnerabilities, enhancing the security of Henry Schein's web applications.
- Developed and optimized MySQL scripts to convert JSON data into Excel sheets, streamlining data analysis and reporting, improving data visualization and decision-making for leadership.

Florida State Men's Lacrosse Tallahassee, FL September 2024 – May 2026

Streaming & AV Production

- Set up and operated all video production equipment to livestream practices and games using OBS Studio and Adobe Photoshop; provided live commentary, managed real-time statistics, and updated scoreboard graphics.

TECHNICAL PROJECTS

AI-Driven Job Application Engine | Python, Node.js, LLMs (Cerebras / Groq / DeepSeek)

- Engineered an AI-driven automation tool using LLM-based code generation to streamline job application workflows; integrated multi-provider LLM failover across Cerebras, Groq, OpenRouter, and DeepSeek.

CERTIFICATIONS

CompTIA Security+ | CompTIA | In Progress

TECHNICAL SKILLS

Security & IAM: Palo Alto Panorama, Microsoft Entra ID, Burp Suite, OWASP ZAP, Splunk, SentinelOne, Torq

Languages: Python, SQL, T-SQL, Java, JavaScript, HTML/CSS

Platforms & Tools: Google Cloud Platform, MySQL, Selenium, OBS Studio, LLM APIs (OpenAI / Anthropic)
